

# The Federation of Fryern Infant and Junior Schools

This policy supports the Rights Respecting principles adopted by the Federation of Fryern Infant and Junior Schools and is particularly relevant to the following articles:

Unicef- Convention on the Rights of the Children

Article 3

The best interests of the child must be a top priority in all things that affect children

Article 23

A child with a disability has the right to live a full and decent life with dignity and independence, and to play an active part in the community.

Article 29

Education must develop every child's personality, talents and abilities to the full.

### **ACCESSIBILITY PLAN 2021-2024**

#### Introduction

Under the Equality Act 2010 schools should have an Accessibility Plan. The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that "schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation".

#### Definition

According to the Equality Act 2010 a person has a disability if:

- He or she has a physical or mental impairment, and
- The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities.

The Accessibility Plan is listed as a statutory document of the Department for Education's guidance on statutory policies for schools. The plan will be reviewed every three years and approved by the Governing Body; it will be monitored annually by the Resources Committee.

Reviewed September 2021 Review date: September 2024

This plan sets out the proposals of the Governing Body of the schools to increase access to education for disabled pupils in the three areas required by the planning duties of the DDA:

- Increasing the extent to which disabled pupils can participate in the school's curriculum (this includes teaching and learning and the wider curriculum of the schools such as participation in after schools clubs, leisure and cultural activities or schools visits.
- Improving the environment of the schools to increase the extent to which disabled pupils can take advantage of education and associated services (this includes improvements to the physical environment of the schools and physical aids to access education.
- Improving the delivery to disabled pupils of information which is provided in
  writing for pupils who are not disabled. This will include planning to make
  written information that is normally provided by schools to its pupils available
  to disabled pupils. Examples might include hand-outs, timetables, textbooks
  and information about schools events. The information should take account of
  the pupils disabilities and the preferred format of pupils and parents and be
  made available within a reasonable timeframe.

The Federation of Fryern Infant and Junior Schools aims to treat all stakeholders, including pupils, prospective pupils, staff, governors and other members of the schools community favourably and, wherever possible, takes reasonable steps to avoid placing anyone at a substantial disadvantage. The schools aim to work closely with disabled pupils, their families and any relevant outside agencies in order to remove or minimise any potential barriers to learning, which puts them at a disadvantage, but allows them to learn, achieve and participate fully in schools' life. The schools are active in promoting positive attitudes to disabled people in the schools and in planning to increase access to education for all disabled pupils. As part of the schools' continued communication with parents, carers and other stakeholders we continually look at ways to improve accessibility through data collection, questionnaires and parental discussions.

## **Contextual Information**

Both schools are one story building which have disabled toilets. There are also three temporary classrooms housed in two temporary buildings. There is disabled parking on site. All areas of the school grounds are accessible to wheelchair users, although the pond area may give restricted access unless accompanied by an adult. At present we have no wheelchair dependent pupils but we have some parents with mobility impairments.

# The Current range of Disabilities within The Federation of Fryern Infant and Junior Schools

The schools' have children with a range of disabilities which include moderate and specific learning difficulties, visual and hearing impairment. When children enter the infant or junior school with specific disabilities, the school contacts the LA professional for assessments, support and guidance for the schools and parents. We have a number of children who have asthma and all staff are aware of these children. Inhalers are kept in the classroom and spare (named) inhalers in the office.

Reviewed September 2021 Review date: September 2024

We have competent First Aiders who hold current First Aid certificates. All medication is kept in a central safe and secure place which has easy access for First Aiders and staff members. Administration of Medicines consent forms are completed by parents, outlining the amount and time of the medication. All medication administered is recorded and all medication held on site is recorded.
