

Year R Home Learning Spring 1 – Our World!

Hand in date: 5th February 2024

It is time for Year R to join the rest of the school in home learning! Children will be given some suggested activities to complete over the course of a half term. Please complete at least 2 activities. Any home learning, including work on paper or pictures, can be put in this folder (place new learning on top of old learning so that newest additions are always at the front of the folder). Alternatively, if your child has chosen to make a model, they can bring this into school to share with their teachers and friends. Please get your child to colour in the box of the activities they have completed and return this folder and any models to your child's class teacher by the hand in date. And most importantly, have fun! Children often enjoy completing these activities at home with parents as it is a fun activity where you can spend some time together!

Learn a song a different language

Create a model of a mode of transport

Research, draw and colour flags from around the world. How many flags have you drawn? Can you write the number?

Read a book that is set in a different country

Try different foods from around the world – can you try something new?

Practice writing your name using correct letter formation (sheet attached)

Draw your route to school

Can you show/draw us a picture of what countries or landmarks you have been to? If you want an extra challenge, can you label the picture with CVC words or a sentence?
