Summer 5

**We hope you all have a lovely break next week.
27th - 31st May 2019
HALF TERM - BOTH SCHOOLS CLOSED**

Some lovely news

We would like to say a huge congratulations to Miss Pigin who is expecting her first baby this September. She will return to Fryern after the summer holidays for a short time before starting maternity leave. Mrs Morrow will then be the main point of contact (via the office) for any infant school queries.

Year 1

Year 1 are launching their new topic of 'Explorers' on **Monday 3rd June 2019**. We would like the children to come dressed as explorers. They can also bring a small rucksack packed with anything they would need for explorations (e.g. rope, map, magnifying glass).

Year 4

The children in Year 4 will be making items of clothing for their art projects after half term. Please remember to collect a variety of recycled materials e.g. yogurt pots, milk bottle lids, crisp packets, sweet wrappers etc. They will need to be clean and ready to use. Many thanks.

Year 5 Show - 5th June

Tickets for the Year 5 production of 'The Rocky Monster Show' are now on sale from the school office. Adult's are £2.50 children & concessions £1.50 (under 2's are free).

Canine Partners

Last week we were visited by our friends at Canine Partners. Thanks to all the support we received at our toy stalls and the tickets we sold for the Valentines raffle, we were able to give them a cheque for £354.60. This will provide care for another puppy.

Bike Workshops

Bike-It Ray is running two workshops at Pavilion on the Park over half term. Please visit his website for more details or to book your place.

Be Tick Aware

Advice to keep safe from ticks this summer

- Stick to designated pathways when out walking
- Where practical, wear long light-coloured trousers tucked into socks when out walking
- Use an insect repellent
- Do a tick check during and after walking
- If you are bitten by a tick, remove it promptly and safely with tweezers or a tick removal tool
- Disinfect the bite
- Look out for signs of Lyme disease
- Advise pupils to contact a GP if you think they have symptoms of Lyme disease

What are ticks?

Ticks are small spider-like insects which usually live in areas of dense vegetation such as woodland, grassland and moorland where there are host animals, such as deer, that they can feed on. They can sometimes also be found in urban parks and gardens.

Why do they pose a danger?

Ticks feed on the blood of a host animal or human, dropping off when full, but they can stay attached for days if not removed. Some ticks may carry Lyme disease bacteria from an infected animal and transmit it to a human which can have health consequences if not treated.

What are the symptoms of Lyme Disease?

Symptoms may include tiredness and mild flu-like symptoms (fever and headache) and sometimes (but not always) a characteristic bulls-eye red rash.

If left untreated, at a later stage it can affect the joints, nervous system or the heart.

There is no vaccine so regular tick checks and prompt removal are the most effective approach to reducing risk.

When to get medical help

The risk of Lyme disease is low and you don't need to contact your GP unless you become unwell.

Symptoms include:

- a high temperate, or feeling hot and shivery
- headaches
- muscle and joint pain
- tiredness and loss of energy

Let's Celebrate Fryern Infant School...

	Worker of the Week	Learning Tool Box
Tulip	Millie W	Jeeya A
